

Putting The "F" Word Into Learning?

WHAT

By "F" word, we define it FUN! Tycoon is an interactive **Experiential Learning tool** and **Real-Time Business Simulation** incorporating the use of digital technology, intricately designed to inspire the minds of future leaders in organizations around the world. This experiential learning methodology is based on extensive research in educational theory and psychology and enables participants to improve self-awareness in a fun and engaging way. We believe learning is a process by which experience results in a relatively permanent change in future behaviour.

Tycoon application

WHO

Target Participant:

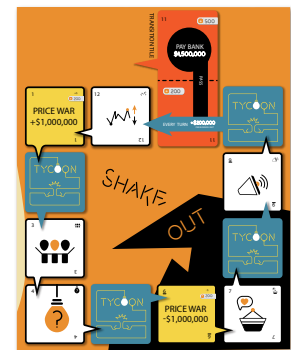

Millennials

All levels of Leaders

All levels of Management

A part of Tycoon Board

FACILITATOR CERTIFICATION PROGRAMME is available for trainers, in-house training and development professionals, consultants, HR professionals, coaches, teachers, university professors, change managers and team leaders etc.

WHY

"Tycoon" introduces the top skills of highly effective people in adapting to change. It opens with an explanation of how many individuals who have achieved a high degree of outward success still find themselves struggling with an inner need for developing personal effectiveness and growing healthy relationships with other people. And by doing so, the participant will be equipped to become an influential leader and ultimately to formulate a highly effective team towards a common goal.

HOW TO START

- 4 players per simulation game*
- 240 minutes including a constructive debriefing
- A board game set of Tycoon
- Tycoon application (iOS)
- Certified Facilitator**

*Suggestion: Best grouping is 4 players and available for 3-6 players.

**One Certified Facilitator to facilitate maximum 4 simulation games at the same time.
